Item 8.01 Other Events.

Set forth below is the relevant portion of the press release attached hereto as Exhibit 99.1 whereby pSivida Corp. addresses its planned Special Meeting of Stockholders (the “Special Meeting”), which pSivida Corp. expects to hold on Tuesday, June 27, 2017, at 10:00 am. “Because the Company’s shares are listed on the Australian Stock Exchange (the “ASX”), the Company’s ability to sell shares under the ATM Program is subject to an ASX rule limiting the number of shares the Company may issue to 15% in any 12-month period without shareholder approval, as well as other applicable rules and regulations of ASX. The effective and efficient use of the ATM has resulted in the Company having nearly reached its current ASX limit. Therefore, in order to have a variety of strategies available to meet the future capital resource needs required to achieve the Company’s growth objectives, a preliminary proxy statement has been filed for a special meeting of stockholders to seek approval to refresh the Company’s capacity to issue an additional 15% shares of common stock.”

Important Additional Information

In connection with the Special Meeting referenced above, pSivida Corp. will be filing a definitive proxy statement concerning the Special Meeting with the U.S. Securities and Exchange Commission. BEFORE MAKING ANY DECISION ON HOW TO VOTE AT THE SPECIAL MEETING, PSIVIDA CORP.’S STOCKHOLDERS ARE URGED TO READ THE DEFINITIVE PROXY STATEMENT AND ANY OTHER RELEVANT DOCUMENTS FILED WITH THE SEC WHEN THEY BECOME AVAILABLE BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION. pSivida Corp.’s stockholders can obtain free copies of the definitive proxy statement and other documents when they become available by contacting pSivida Corp.’s Secretary, c/o pSivida Corp., 480 Pleasant Street, Watertown, MA 02472 United States. pSivida Corp. Reports Fiscal 2017 Third Quarter Results; Key Milestones on Track

EU and US Calendar 2017 Registration Filing Milestones for Durasert™ for Posterior Segment Uveitis Remain on Schedule

Conference Call and Webcast Today, May 4th, at 4:30 p.m. ET

WATERTOWN, Mass., May 4, 2017 — pSivida Corp. (NASDAQ: PSDV) (ASX: PVA), a leader in the development of sustained release drug products and technologies, today reported financial results for its fiscal 2017 third quarter and nine months ended March 31, 2017. The Company's progress during the third quarter has set the stage for the achievement of several near-term goals during the remainder of calendar 2017 including:

Durasert™ Three-Year for Posterior Segment Uveitis:

- Report top line results from the second pivotal Phase 3 clinical trial in June 2017.
- Submit the European Market Authorization Application (MAA) in June 2017.
- File an NDA in the U.S. during the fourth quarter of calendar 2017.
- Pre-clinical safety and PK studies of its next generation shorter acting Durasert for posterior segment uveitis remain on track to commence in the second quarter of calendar 2017.
- Present clinical study data at leading medical conferences, including the Association for Research in Vision and Ophthalmology (ARVO) annual meeting on May 8, 2017 and American Society of Retina Specialists (ASRS) annual meeting in August 2017.

Other Durasert Related Developments:

- Full enrollment for the Phase 1 knee osteoarthritis (OA) investigator-sponsored clinical trial was achieved with Hospital for Special Surgery (HSS). The Company expects HSS to report the initial 24-week data by the fourth quarter of calendar 2017.
- The Company entered into a funded feasibility study agreement with a leading biopharmaceutical company in March 2017. The Company expects to consummate one or more additional collaboration agreements in calendar 2017.

“We continue to make substantial regulatory, clinical and collaborative progress with our Durasert technology,” commented Nancy Lurker, President and Chief Executive Officer. “Our near-term goals remain: 1) unmask our second pivotal Phase 3 clinical trial for Durasert three-year uveitis and file regulatory approval applications in both the EU and US in calendar 2017, 2) establish additional collaboration partnerships for our proven Durasert technology, and 3) finalize an EU out-license partner for our three-year uveitis product candidate. Our efforts to date are yielding promising results and the successful achievement of these upcoming milestones will demonstrate the potential of our moderate risk/nearer term product development programs.”

Fiscal Third Quarter and Nine Months 2017 Results

Revenue for the third fiscal quarter ended March 31, 2017 totaled \$590,000 compared to \$324,000 for the prior year quarter. Operating expenses for the three months ended March 31, 2017 totaled \$5.8 million compared to \$5.4 million a year earlier. Net loss for the quarter ended March 31, 2017 was \$5.1 million, or \$0.15 per share compared to a net loss of \$5.0 million, or \$0.15 per share, for the prior year quarter.

Revenue for the nine months ended March 31, 2017 was \$6.8 million compared to \$1.3 million for the nine months ended March 31, 2016. The year-over-year increase was primarily attributable to the \$5.6 million of revenue recognized upon termination of the Pfizer collaboration agreement. Operating expenses for the first nine months of fiscal 2017 were \$19.3 million compared to \$16.6 million a year earlier. The increase was attributable primarily to (i) severance costs and professional fees related to the CEO transition and other previously disclosed executive team changes and (ii) clinical and regulatory consulting services related to preparation of MAA and NDA registration filings for Durasert three-year uveitis, partially offset by lower CRO costs for the Phase 3 clinical development of Durasert three-year uveitis. Net loss for the nine months ended March 31, 2017 was \$12.4 million, or \$0.36 per share, compared to a net loss of \$15.2 million, or \$0.49 per share, for the corresponding fiscal 2016 year-to-date period.

During the fiscal 2017 third quarter, the Company issued 1,411,686 shares of common stock for gross proceeds of approximately \$2.5 million through utilization of its existing at-the-market equity offering program (the “ATM Program”). At March 31, 2017, the Company’s cash, cash equivalents and marketable securities totaled \$15.4 million. Subsequent to the end of the fiscal third quarter, the Company has continued to strengthen its balance sheet by further utilizing the ATM Program, issuing approximately 3.6 million additional shares of common stock for gross proceeds of approximately \$6.3 million.

Because the Company’s shares are listed on the Australian Stock Exchange (the “ASX”), the Company’s ability to sell shares under the ATM Program is subject to an ASX rule limiting the number of shares the Company may issue to 15% in any 12-month period without shareholder approval, as well as other applicable rules and regulations of ASX. The effective and efficient use of the ATM Program has resulted in the Company having nearly reached its current ASX limit. Therefore, in order to have a variety of strategies available to meet the future capital resource needs required to achieve the Company’s growth objectives, a preliminary proxy statement has been filed for a special meeting of stockholders to seek approval to refresh the Company’s capacity to issue an additional 15% shares of common stock.
